

SWIC TO HOST ELECTRONICS RECYCLING DAYS THIS FALL

Go green with Southwestern Illinois College! Thanks to the overwhelming community response from the electronics recycling event held on Earth Day, SWIC and WITS Inc. will team up to offer several recycling events throughout the fall.

The first electronics recycling event will take place from 10 a.m. to 4 p.m., Sunday, Aug. 8 at the Belleville Campus, 2500 Carlyle Ave. The drop-off zone will be in parking lot M5, near the Varsity Gym.

Members of the community are invited to bring in their old computers, televisions, VCRs, DVD players, home electronics, washers, dryers, refrigerators and more. Console and wooden televisions will not be accepted. For a complete list of recyclable items, visit WITSinc.org.

WITS, a nonprofit organization, asks for donations to help cover costs of appropriate recycling.

The recycling events will continue throughout the fall, taking place:

Sunday, September 12th

Sunday, October 10th

Sunday, November 14th

For more information, visit WITSinc.org or call 314-382-1650.
